

(Senior) Fullstack Frontend Developer JavaScript/TypeScript (male/female/diverse)

Location: Pforzheim

Who we are

itmX stands for innovation, trust, mindfulness and experience. Our innovative solutions in the CRM and Commerce environment inspire more than 120 satisfied customers. In our Innovation Labs, we develop not only classic CRM functions but also state-of-the-art use cases with digital assistants using artificial intelligence.

Our employees and customers trust us. Mutual trust is an important element of our mission and vision and is lived every day. In addition to trust, mindfulness is important to us in order to consciously perceive and reflect our environment and to be able to act in a consciously reliable and fair manner.

The experience with our software, with our employees and the entire environment of itmX is characterized by excellent professionalism. Our customers have this expectation of our services and rightly so.

itmX is a subsidiary of NTT DATA Business Solutions, a leading global SAP consulting company.

What is waiting for you

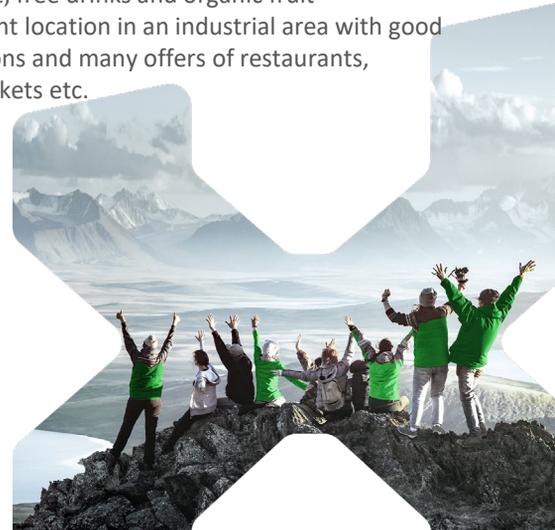

- You will play a key role in the development of our new cloud-based application and be responsible for its architecture
- In an agile team, you will develop JavaScript/TypeScript interfaces with modern frameworks (React/Vue) - always with a focus on the best user experience
- In close cooperation with the product management, backend and QA team you will support with UI/UX design concepts and implementation possibilities
- You keep an eye on the quality of your software and keep it at a high level through code reviews, tests and analyses

Your roots

- You have successfully completed your studies in the IT environment or are an IT expert with appropriate professional training and experience or comparable qualifications
- You can look back on several years of professional experience in the development of complex web-based applications
- You are experienced in using at least one SPA technology such as Vue.js, AngularJS or ReactJS
- You will also have sound knowledge of JavaScript, HTML5, CSS3
- Your independent way of working and your quality awareness are very distinctive and you live Clean Code

What we offer you

- A challenging, diversified position as well as many exciting projects and tasks await you
- A great team of 50 colleagues, who simply love and live their job and experts in their field, are always ready to help you with words and deeds
- Flat hierarchies and plenty of room for innovative ideas and design possibilities
- We train our employees individually according to their skills and knowledge
- An attractive salary model, a kindergarten allowance, free drinks and organic fruit
- Convenient location in an industrial area with good connections and many offers of restaurants, supermarkets etc.

Apply now.

We are looking forward to meet you!
